

ANSATECH
EXHAUST SYSTEM

SAG
GROUP

About

Founded in 1959, ANSA TECH (formerly ANSA Marmitte) has a long-standing expertise in designing and manufacturing high-performance exhaust systems.

Originally a family-run business, it expanded into Original Equipment (OE) supply for top-tier manufacturers.

Acquired by SAG Group in 2015, ANSA TECH now operates two advanced facilities in Finale Emilia (MO), Italy—one for production and offices, the other dedicated to R&D, testing, prototyping, and additive manufacturing, leveraging cutting-edge Industry 4.0 technologies.
