

About

BERCELLA specializes in advanced composite materials, with over 25 years of expertise in carbon fiber, Kevlar, quartz, and structural adhesives. The company has vertically integrated key processes such as autoclave curing, filament winding, CNC machining, and design to accelerate time-to-market.

Driven by precision and innovation, BERCELLA has established itself as Italy's leading manufacturer of composite structures for the space industry, meeting the sector's highest production standards.

Products & Services

- Composite Materials layup
- Autoclave
- Large format 3D printing
- Compression moulding
- CNC machining
- Painting
- Designing
- Engineering
- Material Testing & Qualification Lab

Main Markets

- Europe

References

- Government Agencies: ESA, ASI
- Large System Integrators: Airbus, Thales Alenia Space Italy, OHB Italy, Leonardo, IHI Japan
- New Space Economy Startups: Sitael, D-Orbit, GOM Space

Certifications

- UNI EN ISO 9001
- UNI EN 9100
